

To Our Valued Clients,

TeksMed is committed to protecting the wellbeing of our staff, their families and the community. As the situation surrounding COVID-19 develops, we have implemented the following measures in order to prevent the spread of the virus:

- To encourage social distancing and to help flatten the curve of the COVID-19 outbreak, all of our staff are working from home.
- All in-person meetings have been postponed or transitioned to phone calls or web conferences.
- All business travel has been postponed until further notice.
- Our office space has been thoroughly deep cleaned and disinfected.

We will be continually monitoring for updates from government and medical authorities, and will revise our actions accordingly. TeksMed has a plan in place, and we continue to operate and support all of our clients. We are committed to providing you with the same level of exceptional service you have come to expect from us.

As a business that works closely alongside the medical field, we understand the obligation to do all that we can to reduce the burden on the Canadian health care system. Our focus, as always, is on ensuring the wellbeing of workers across Canada, beginning within our own business.

Thank you very much for your continued support,

Tony Culhane, CDMP

President

TeksMed Services Inc.
